This course teaches law enforcement officers and supervisors the best way to respond to mentally ill persons who are armed, barricaded, and in crisis. Students will leave the course with an understanding of modern disengagement and re-engagement tactics, the specific ways to avoid liability, and a collection of the best non-criminal barricade policies from police agencies all around the country.

Each student will receive:

- ✔ An understanding of your state's laws regarding the public duty doctrine, special relationships, liability, and duty
- ✔ A decision-making cheat sheet for disengagement
- ✔ Policies, a police report template, and a script to use to sever special relationships

Most every police agency is searching for de-escalation training for law enforcement. Instead of vague philosophical notions about de-escalation, this course presents specific guidance that your officers can use immediately.
