The way law enforcement officers use force is under scrutiny like never before. But for years, we've heard complaints from law enforcement supervisors that they weren't receiving the up-to-date and practical training they need to mitigate risk for their officers and their agency. That's why thrilled to bring back our **Use of Force for Field Supervisors** course for this one-time engagement in Hollywood, FL.

Although this course is only 8 hours long, it is packed with everything you need to manage the types of use of force incidents you respond to most often. This course provides current and aspiring supervisors with the specific skills they can use to reduce liability and the risk of injury by managing the most common use of force incidents both before, during and after an incident, including:

- ✓ The Florida and 11th Circuit use of force laws that every Florida supervisor needs to know
- ✓ The best ways supervisors can "set the tone" ahead of time during briefing trainings
- ✓ How to manage the scene of a use of force incident
- ✓ How to manage use of force incidents on your shift and conduct in-field use of force investigations

This course is focused on arming Florida police supervisors with practical tools they can begin using immediately. Through the use of case analysis and scenarios, students will leave this course confident in conducting use of force reviews.

We are thrilled to welcome former Savage Training Group instructor Jason Louis back for this one-time engagement. Don't miss out. Get registered for Use of Force for Field Supervisors today.
